

**PRELIMINARY CRYSTAL INFORMATION (from crystal supplier)**

<b>Name:</b>	
<b>Date:</b>	
<b>Source of compound, e.g., last chemical reaction with all reagents, solvents and reference, e.g., research notebook page:</b>	
<b>Solvent(s) used to grow crystals:</b>	
<b>Stable out of those solvents for how long?</b>	
<b>Stable to air for how long?</b>	
<b>Proposed structure and formula; give formula as C#H#N#, etc.:</b>	
<b>Confirmed spectroscopically how?</b>	
<b>Comments:</b>	

**DATA CRYSTAL INFORMATION (from crystallographer)**

<b>Date:</b>	
<b>Crystal identifier:</b>	
<b>Saved where:</b>	
<b>Temperature:</b>	
<b>Mount type:</b>	
<b>Unit cell dimensions:</b>	a =                      b =                      c = =                              =                              =
<b>Dimensions of crystal:</b>	
<b>Habit and color of crystal:</b>	
<b>Data collection comments:</b>
