

Dear students of MA253A,

Disclaimer: **DO NOT PAY FOR ANYTHING.**

This letter contains instructions to set up your MyLab Math account through Pearson. As discussed previously, this will be the means by which you complete homework for the rest of the semester, so setting up a MyLab account is necessary for you to complete the course. To set up your account, you will need the following student registration code:

Student Registration code: **TBAPPF-FLUFF-STOOD-GILET-PRATO-MOOSE**

This code will allow you to obtain **free** access to your MyLab account. To be completely clear, this access is completely free (using this registration number) and **you should not pay to sign up**. If you are asked to pay for something, **do not pay** and, instead, contact me for help.

Once you obtain access, you will see our first homework assignment. I have given you until Wednesday to complete it – future assignments (including next week’s assignment) will be due on Fridays unless otherwise stated.

If you have any questions in setting up your account or getting started, please contact me. Again, **do not pay for anything**.

Sincerely,

Evan Randles, Ph.D.  
Assistant Professor of Mathematics  
Department of Mathematics and Statistics  
Colby College  
Waterville, ME 04901
